PROPOSED CHANGE:

NNSA requires an additional data field to support the tracking and reporting of transformation activities. Specifically, NNSA needs to distinguish between "enduring" and "non-enduring" facilities and infrastructure. By having a clearer identification of which facilities and infrastructure are "enduring" under complex transformation, NNSA will have a more accurate means to assess the subset of F&I which more closely approximates the NNSA Complex of the Future. NNSA shall define "enduring" as those facilities and infrastructure that are projected to remain operational beyond the planning period FY2018. Any asset that is anticipated to be shutdown, transferred, terminated (lease) or demolished prior FY2018 shall be deemed "non-enduring".

Other DOE Programs would NOT be required to populate this field unless they find value to do so for their own purposes.

The following data element is proposed:

Enduring (PROP_ENDURING) – This field can be programmed as a Yes / No flag. This data will be independent of related fields like DOE Excess Indicator which NNSA shall continue to populate consistent with DOE and FRPC guidance.

UPDATE FREQUENCY: Annually

JUSTIFICATION:

NNSA needs this information to improve corporate programming, budgeting and disposition activities in support of NNSA Complex of the Future.

REMARKS (REVIEWERS, PLEASE ADD YOUR SIGNATURE AND DATE):

FAC NOT APPROVED, 4/16/08 - FAC RECOMMENDS USE OF EXISTING FIELDS SUCH AS **ESTIMATED DISPOSITION YEAR** OR **MODERNIZATION PLANNING INDICATOR** TO CAPTURE THIS "ENDURING" INFORMATION. THE FAC IS SENSITIVE TO THE EXPANSION OF THE FIMS DATABASE, PARTICULARLY WHEN PROPOSED DATA ELEMENT DEFINITIONS ALIGN QUITE CLOSELY TO EXISTING DATA ELEMENTS. ALSO, THE FAC REMINDS THE REQUESTOR THAT DATA LABELS CURRENTLY MUST BE CHANGED WHEN DATA IS EXTRACTED VIA MS EXCEL OR MS ACCESS AS THE DATA ELEMENT NAMES REPRESENT THE DATABASE NAMES AND ARE NOT PARTICULARLY SUITABLE FOR DATA PRESENTATION. THE EXISTING DATA ELEMENT **MODERNIZATION PLANNING INDICATOR** SEEMS PARTICULARLY USEFUL TO MEET THE NEEDS DISCUSSED IN THIS RFC. **MODERNIZATION PLANNING INDICATOR** OFFERS THREE OPTIONS: (1) REPLACE WITH NEW FACILITY, (2) DEMOLISH WITHOUT REPLACEMENT OR (3) CONTINUE TO OPERATE. TWO OF THESE CERTAINLY COULD BE USED TO FIT THE "ENDURING" YES/NO FLAG.
